## Residents of the Month: Mary Hayes

It may not be March at O'Neill Healthcare North Olmsted, but Irish Eyes are certainly smiling down on our October resident of the month Mary Hayes. Mary was born on July 1, 1934 to Julia and Michael O'Donnell. She was the second born of five children. Mary recalls the story of how her parents were both born in Ireland, however it wasn't until they attended

an Irish Dance in Cleveland that they met and fell in love.

Growing up Mary attended St. Philomena's Church and School until sometime in the 1940's when her family moved to West Park. After that they switched to St. Patrick's Church and School. As a kid Mary remembers playing outside a lot with her siblings and other kids in the neighborhood. Mary shared a story that happened at age 13, when she started wearing glasses. It was about how unfair her mother was for having her stop playing baseball, because she didn't want her to break her glasses.

Mary attended High School at Ursuline Academy Sacred Heart, after graduating she went on to attend Ursuline College. Mary graduated with a Degree in Chemistry and a minor in Biology. After graduation she went to work for General Electric. At the same time she met what would become the love of her life, John Hayes. Mary met John in a very similar way as her mother met her father. They were at an Irish dance and Mary was dancing with another gentleman at the time. She remembers him coming over and asking her to dance the Waltz, that night they danced several

times. They began dating, traveled to Ireland together, because John was also from Ireland and they went back to visit with his family, and nine and a half months later they were married.

After getting married, John continued as an Iron Worker, and Mary continued her work at General Electric in the lab, where she tested material they made to make sure they were made correctly. Shortly after they were married, their family began to grow, in July of 1959, William the first of six boys was born. Next in line was Michael, John, Patrick, Jim, and finally Kevin. Mary quit working to stay home and raise the boys. While the boys were growing up, Mary remembers all of the many activities and games that they were involved in that would keep her busy. She enjoyed sewing costumes for the boys who were involved in Irish Dancing, and watching the numerous sporting events that took place over the years. The family was also able to make many trips to Ireland, so that they could show the boys where their father was born, and to meet all of the family still living in Ireland. Over the years Mary's family continued to grow, today she is a proud grandmother of 11 and a great-grandmother of 3.

In Mary's free time she enjoyed cooking and baking, reading and working on crossword puzzles. You can always find Mary attending anyone of the activities offered, whether it is Mass, baking at around the kitchen table, Trivia (which Mary by the way is extremely good at, she can usually answer any question on any topic), or at any of our Entertainment or Socials, Mary is the life of the party. She makes a friend no matter where she is, her super sweet personality shines bright. So next time you see Mary around stop and say hi, you will leave with a smile on your face.

A gift to this Fund in order to say thank you to our staff is much more meaningful than a tray of cookies or candy. Additionally, gifts made to this Fund can be a special way to honor a loved one.
