in  
Resident Satisfaction

★★★★★  
CMS 5 Star Facility

Ohio Department of Aging  
#1 in Ohio  
in  
Family Satisfaction

## *A note from John T. O'Neill...*

Since 1962, the O'Neill family has reliably provided the highest quality care to seniors in Cleveland's West side communities. You probably know that our facilities in Bay Village, Lakewood, North Olmsted, and North Ridgeville are dedicated to serving local seniors, as evidenced by our numerous achievements and awards received over the years.

**We are very excited to announce an important name change in our organization – our branding is now O'Neill Healthcare!**

To better identify our large organization within the marketplace, we have established a cohesive name for all of our facilities. Effective immediately, our facilities and organizations will undergo the following name changes:

Bradley Bay Health Center	<b>O'Neill Healthcare Bay Village</b>
Center Ridge Health Campus	<b>O'Neill Healthcare North Ridgeville</b>
Lakewood Senior Health Campus	<b>O'Neill Healthcare Lakewood</b>
Wellington Place	<b>O'Neill Healthcare North Olmsted</b>
O'Neill Management	<b>O'Neill Healthcare</b>
Bayview Hospice	<b>O'Neill Healthcare Hospice</b>
<i>New! 118 bed, state-of-the-art facility on Lorain Road opening Fall 2014</i>	<b>O'Neill Healthcare Fairview Park</b>

As you can see, we have developed identities that unify our facilities under the O'Neill Healthcare name. The single brand name makes it easier to identify our communities and the expansive services we offer to seniors. The ownership of the facilities remains the same, as does our dedicated staff and our commitment to provide the same high quality healthcare that you have relied upon over the years.

We thank you for your support, and look forward to serving the residents and West side communities for many years to come.

Sincerely,

John T. O'Neill, LNHA  
President  
O'Neill Healthcare

# Administrator's Corner...

Dear Friends and Families:

It's that time of year, when the warm days of summer fade into the cool crisp days of autumn. That also means we are entering flu season. I want to enlist your support so that we can reduce the chance of having any influenza in our building. Flu like symptoms include; fever (over 100 degrees Fahrenheit), headache, extreme tiredness, dry cough, runny or stuffy nose, muscle aches and sore throat.

Candy Sanson

*LISW, LNHA, Administrator*

Flu is a serious contagious disease resulting in over 200,000 hospitalizations per year. An analysis of the most recent flu season data completed by the CDC has shown that there was a 71% reduction in flu-related hospitalizations among adults of all ages and a 77% reduction among adults age 50 and older, when they received the flu vaccine, compared to the previous flu season. Vaccination works!

The Centers for Disease Control and Prevention has issued the following recommendations on flu prevention:

## **Take time to get vaccinated**

- Get your annual seasonal flu vaccine. The CDC recommends that anyone over the age 6 months receive the vaccine. This is especially important for people at high risk of serious flu complications, including young children, pregnant women, people with chronic health conditions and people 65 years and older.
- Vaccination is important for health care workers and others who live with or care for the elderly or chronically ill to prevent giving them the flu.

## **Take everyday preventive actions**

- Cover your nose and mouth with a tissue when you cough or sneeze. Throw the tissue in the trash after use.
- Wash your hands frequently with soap and water. Use alcohol based hand sanitizer if soap and water is unavailable.
- Avoid touching your eyes, nose or mouth. This is how germs are spread.
- Avoid close contact with sick people.
- If you are sick with flu-like symptoms stay home for at least 24 hours after your fever is gone unless you are receiving medical care. (Your fever should be gone without the use of fever reducing medications)
- While sick, limit contact with others to keep from infecting them.

## **Take flu antiviral drugs if recommended.**

- If you get sick with the flu, antiviral drugs may be ordered by your physician.
- Antiviral drugs are prescription medicines that fight against the flu by keeping flu viruses from reproducing.
- Antiviral drugs can make your illness milder and you feel better faster
- Antiviral drugs work best if started within the first 2 days of symptoms.

So please remember, that while we love to have you visit, if you aren't feeling well please stay home and save your visit for when you are better. And remember the best prevention is vaccination and of course the advice of our mothers....."Cover your mouth" and "Wash your hands, wash your hands, wash your hands." Stay healthy!

## October Employee Anniversaries

*Congratulations and thank you to the following employees for their years of service at O'Neill Healthcare Bradley Bay.*

★ Edward Rosario, Cook	22 years
★ Liz Meczka, Dietary Supervisor	16 years
★ Jason Easterday, Cook	12 years

## Volunteer of the Month

### Meet our October Volunteer of the Month - Carol Maciag

Bradley Bay is so lucky to have someone like Carol as part of our family. She has been coming here to brighten the lives of our residents for over 25 years! Carol is a member of Holy Spirit parish in Avon Lake.

Carol is here every week to lead our residents in the Rosary, and every other month, she joins Fr. Beatty and assists him as Eucharistic Minister in Mass. Carol is very special to us, and special to her 4 children and 12 grandchildren – the product of her 68 year marriage! In addition to all she does for us, she finds time for her hobbies of furniture refinishing, flower arranging, working with the APL and volunteering at Holy Spirit. Thanks Carol for all you do!

## Save the Dates for our Upcoming Events!

*PLEASE CALL 440-871-3474 TO RSVP*

**October 18 - 3pm**  
**Ohio State Tail Gate Party**

**October 22 - 4:30pm**
